PROFESSIONAL SUMMARY

IT Support Specialist with hands-on experience supporting a large workforce at Coca-Cola Beverages Africa, handling everything from routine account resets to more involved network and systems issues. Comfortable working across ServiceNow, Active Directory, Azure, and Microsoft 365, with exposure to enterprise tools like SAP and D365. Also spent time with the State Department for Correctional Services, supporting day-to-day IT operations and contributing to early development work on a library management system. Looking to bring that same practical, problem-solving approach to a team where I can keep learning and growing.

PROFESSIONAL EXPERIENCE

IT Support Intern — Coca-Cola Beverages Africa

Nairobi, Kenya | April 2026 – Present

- Provide onsite IT support for Coca-Cola staff, handling everything from routine password resets to escalated network issues.
- Log and resolve support tickets daily through ServiceNow, keeping response times within SLA and tracking performance against team KPIs.
- Handle day-to-day Active Directory work — creating accounts, resetting passwords, unlocking users, and adding new machines to the domain.
- Use RC Viewer, AnyDesk, and TeamViewer for remote sessions, reducing the need to physically go to someone's desk for every issue.
- Manage user accounts and licensing on Microsoft Azure, plus general cloud resource administration.
- Set up and enforce MFA, VPN, and Intune policies for remote workers, and monitor device compliance across the board.
- Keep IMACD and CMDB records accurate whenever devices move, get added, or get retired.

IT Attachment — State Department for Correctional Services (SDCS), Ministry of Interior

Nairobi, Kenya | May – Aug 2025

- Provided general IT support across the department — fixing hardware faults, maintaining systems, and troubleshooting network issues as they came up.
- Sat in on reviews of the department's IT project solutions, gaining insight into government IT decision-making.
- Contributed to early development work on a Koha library management system, covering cataloguing, member records, and circulation.
- Set up workstations and peripherals for staff, and kept documentation and asset records up to date.

Freelance IT Support Specialist — Self-employed

Nairobi, Kenya | 2024 – Present (alongside full-time work)

- Take on remote and on-site support jobs for individuals and small businesses — mostly hardware, software, and connectivity issues.
- Set up and troubleshoot operating systems and applications depending on client requirements.
- Advise clients on basic cybersecurity habits and data protection to prevent recurring issues.

University IT Projects — Zetech University

Nairobi, Kenya | 2022 – 2025

- Built an Inventory Management System from scratch to streamline asset tracking.
- Set up an osTicket Helpdesk for internal IT service requests.
- Wrote automation tools for library fines, electricity bills, and basic banking transaction simulations to sharpen scripting skills.

EDUCATION

Bachelor of Science in Information Technology (BSc IT)

Zetech University, Nairobi, Kenya

CERTIFICATIONS

- IBM Cybersecurity Analyst (2025) — Coursera Credential

- Google IT Support (2025) — Coursera Credential
